

What will happen if the student did not pass the session?

cheap research papers

Education is an important step. Study prepares every person to work. The quality of students' knowledge depends on how fruitfully will be fruitful. The educational process consists of cycles: semester - session.

What will happen if the student did not pass the session?

The system is arranged in order to obtain a certain amount of knowledge with the subsequent evaluation of performance. But even successful students are not insured against the situation when the transition to the next semester cycle is difficult because of the wrong session.

Consider what the student threatens in this case and how to avoid the most unpleasant consequences.

Completion of the session

It is necessary to approach the session:

- with marks about the delivery of all tests;
- with accepted teacher coursework, laboratory and testing;
- With the luggage of knowledge gained at lectures, even if this luggage is stored in abstracts.

The lecture material indicates that classes attended. Remember, even if the condition of one point is not fulfilled, you are in the risk group. The first danger is removal from exams.

The second threat is to receive an inept point with a weak response. It is usually not enough to pass 3 exams to get into the appropriate order. Taking the final decision, the management of the faculty draws attention to semester performance and attendance.

The circumstances for which the student did not pass the session

"Tails" appear for various reasons. They are equally undesirable both with full-time learning and in the correspondence form of obtaining a specialty.

Is it possible to relax during the session?

The Dutch can remain clean or being filled with unsatisfactory estimates from any student. Often this happens due to objective circumstances or arises against the background of elementary slips.

Good reasons

It happens that it is impossible to start passing exams:

- due to the disease;
- due to complex family circumstances;
- In the event of an insurmountable student of circumstances.

For example, a Student Marker cannot go to the place of study because of the accident, natural cataclysm or unauthorized detention. If the student has confirmation, a valid reason will be recognized.

Consequence of inaction

Sometimes the student's session is closed, because:

- not paid for study;
- the debts of the current semester are not closed;
- Student was absent for a long time without explaining the reasons.

Your sudden appearance in front of the exams can disappoint Izvestia that there is no you in the list allowed to surrender. Despite the readiness to present all the tasks performed, it will take time to explain the causes of the absence.

Employment important but personal affairs

Often, students explain the non-appearance of employment at work. They believe that the dean should enter their position, especially if the employment is not official.

In this case, additional leave is not issued, and the care from the workplace is considered to be a break. But this is not the case when loyalty will appear in the educational institution.

The passage of the exam in connection with participation in sports, public and other events without coordination with the study part is also unacceptable. And no one will create favorable conditions for relocation.

Lack of knowledge

Quite often, the student comes to the examination audience, takes the ticket, prepares, but in the end gets a twice. And so every next exam. It can be both excitement and lack of knowledge. The student or his teacher can explain the reason.

It is known that the biggest risk of shaking the session arises at the end of the first semester.

This is not surprising, because students of higher educational institutions or colleges have not yet rebuilt after school. Many are just falling into relaxation, feeling freedom from parental care.

Live with parents or in a hostel?

For some students, the unsuccessful first passing becomes a lesson for life. Eyes open to others that a student does not study for the specialty.

There is a category of students who throughout their studies steadily relossy and picks up "tails". In this case, it is important to know what will happen if the student has not passed the session, and how such cases are regulated.
